Assessor Comments	Here presents a neat line of first-cross White Suffolk/Merino ewe hoggets and lambs. The ewe hoggets show plenty of stretch throughout the top line and are in prime condition, reflecting the excellent seasonal conditions currently being experienced throughout the area. Moorundie bloodlines feature on the Merino dam side, while Depta Grove White Suffolk sires have been used to produce ewes that will continue to grow out into large-framed, productive females capable of producing some thumping second-cross lambs. The vendor consistently operates in the top end of the Depta Grove catalogue, and this line is a great reflection of the quality and breeding program behind them.
