Assessor Comments	A very well bred line of Killarney sired 1st cross ewe lambs. Ewes are not station mated and were scanned empty for buyer confidence. Ewes are out of large framed ewes, that in my opinion are still maturing. The ewes are quite lengthy in the body and have traditionally been quite maternal. Vendor bred ewes that have also been flexolted as a buyer confidence tool. Very well shorn and will continue to grow out before spring joining
