Pregnancy Terms	AuctionsPlus Standard Terms apply.			
Assessor Comments	Mount Dixon offer an outstanding line of 230 SIL Australian White ewe lambs, to be presented in two drafts of 115 head, as a run out the gate sale. These ewe lambs display excellent breed character, growth and development, averaging 53kg at assessment. The Robinson family have exclusively used Tattykeel Australian White rams, with their ewe base originating from highly regarded genetics sourced from the McKelvie Family and Carter Family, Nyngan. These females are now beginning to shed their winter coats, as evident in the assessment photos and video. 100% of the mob scanned in lamb to top end Tattykeel flock rams, presenting an excellent opportunity to secure young females with their first joining already in place. All ewes are Gudair vaccinated. The draft is predominantly September–October 2025 drop, with a small number of August drop replacement ewes included. Please note there are 5 hoggets across the entire 230 head draft. These ewe lambs were originally selected to be retained as Mount Dixon replacement females, however the decision has since been made to offer them for sale. A genuine line of young, productive Australian White females backed by proven Tattykeel genetics.
