Assessor Comments	Quality line of 1 yo future breeder ewe lambs, and the opportunity to put a 450 line together of one mark ewes, with the other half of these ewes available in the same sale. Bought ex Watervalley SA, these lambs have been slow to get going, but have really started to bolt away in the last few weeks since being shorn. Please note, these ewes arrived with lice, and have been treated long wool, and again prior to delivery, with no lice being observed either prior to shearing or at assessment. Very soft, plain bodied, beautifully wooled ewes that offer a long future breeding to the ram of your choice.
