Assessor Comments	A line of 170 Egelabra blood Merino ewes, scanned empty, averaging 49kg at assessment. An even line of medium-framed ewes presenting in healthy store condition, displaying soft, supple skins and carrying an even white fleece. These sound, productive ewes are from a long-established and highly regarded Egelabra flock. Scanned empty and presenting purchasers with the opportunity to rejoin to a sire of their choice or continue on for wool production. Shorn 22nd June and carrying approximately 10–11 weeks' wool at assessment. A genuine opportunity to purchase a sound line of Merino ewes from a complete flock dispersal and would be good to top up if successful on purchasing another mob. This vendor has 2 other lots in this sale.
