Assessor Comments	A very well presented line of young ewes that would be an asset to any breeding operation, a rare opportunity from a breeder that purchases rams in the top 5% of the Terrick West sale. Vendor has been breeding quality Merino ewes for 5 generations, prior to the past 7 years ewes were bred along Woodpark Merino blood, more recently they have been purchasing rams in the top 5% of theTerrick West Poll Merino sale to improve genetics and style. The wether portion of this drop performed outstanding at Gundagai Meat Processors GLQ5+ score proving the investment in genetics are paying off. This line of ewes averaged 16.8 Micron and cut 3.5kg at shearing and will continue to improve on wool cut with age, this line represents new age breeding with old style values and would be a welcomed asset to any breeding flock or the perfect starter mob, photos of the ewes in the wool are provided in the assessment, this line of young ewes come highly recommended.
