|---|---|
| Assessor Comments | An excellent opportunity to acquire classed in breeders from a well-established flock. The Smith family have bred self-replacing merino ewes for the last 38 years, with selected Bundilla sires since 2015 and Egelabra prior. The three age groups listed have all been classed in by Austin Grace with the flock being classed by Paul Kelly for many years prior. Rams are selected annually with an emphasis on a balance in figures, contributing to the evenness in the ewes. This line of ewes represents 205 of the 605 black tag ewes listed, delivered as run out the gate. Lambs were weaned and ewes shorn on the 17th August; they are medium- to large-frame ewes. Of the weighed sample they averaged of 52.2kg liveweight at assessment. The ewes are on a rising plane of nutrition; since having lambs weaned off/shearing they will be ideal for joining going forward. |
