Assessor Comments	A small lot of SIL Merino ewes, with an unknown joining window due to an accidental joining. Rams were removed at scanning on 19/06/26. Buyers are asked to make their own allowances when bidding, as an accurate joining date cannot be provided. Both classed & un-classed ewes in this consignment. Mulesed, Dipped and 5-in-1 vaccinated at shearing. The 2025 adult flock cut 5.7kg skirted wool at 18.3 micron. These ewes have had a challenging first 12 months; however, given the right opportunity, they have the potential to grow into true medium-frame ewes, displaying the quality Woodpark traits. These genetics consistently produce quality prime lambs, reaching 30–34kg HCW. The Corbett family have always selected top-quality rams from the Almondvale and Woodpark ram sales. Please note: A small percentage of ewes carry horns or scurs.
