| Vendor Comments                       | Top quality wool sheep shorn every 8 months. Wethers have been classed every year with 12% removed at shearing in December 2025.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| Assessor Comments                     | A quality line of 4 year old, Yalgoo blood Merino Wethers. Vendor has 925 wethers over 2 lots in this sale. Wethers have been heavily classed and shorn every 8 months. Cutting 3.1kg, producing 70mm of wool. Included in the total of 925 wethers are the Waterloo wethers (300 Head) average 16.1micron with the Yalgoo Wethers (625 head) averaging 14.8 micron. A majority of the Waterloo wethers are in this heavier lot. Wethers are rotationally grazed, being moved every couple of days. Worm sampling and monitored monthly with their last drench taking place back in February 2025. Wethers also have full access to Mega-Min dry lick. These wethers would suit the processor or could be purchased to grow out to heavier weights, or the potential of a couple more wool clips. |
