Assessor Comments	On offer is 378 July/August 2024 Drop. Ewes are medium to predominantly large framed "Grass Merino" and Nerstane Merino Blood. Ewes present in very good forward to prime condition. Ewes range from 54-85 to average 67.7kg prior to curfew. These Ewes were all scanned in lamb back in January as a Ewe Hogget by Tony Walsh. Ewes would suit any breeding operation showing their fertility and durability, backed up with years of breeding with youth being on their side. The hard work has been done on these Ewes considering recent shearing on the 15/09/26. Buyers please note that approximately 30 Ewes were observed to have scurr.
