Very Good	75%	Light	25%
Good	10%		

Assessor Comments 50 Top quality classed in June/July 2024 drop poll merino ewes scanned empty on 25/09/26. These ewes are predominately Coddington Poll blood, non mulsed with a long staple of wool (55 mm average for 5 months) These ewes will be ready to shear mid October then join to the ram of your choice. Some of these ewes did have a lamb from a chance joining last year. Some signs of lice were detected in the ram flock on this property so these ewes will be treated with extinosad before they are put on the truck for delivery.
