	Wrinkle Score			
	Plain	100%		
Notable Traits	Traits			
	1 Head	Black pigment around one eye		
	10 Head	Small scurrs		
Assessor Comments	The owners have been selecting rams on post-weaning weight, yearling weight, eye muscle depth and yearling fat for the past 18 years. Their goals for their breeding flock are to improve carcass weight at the same time as increasing fleece weights and maintaining low-micron on plain-bodied merinos that are non-mulesed. These ewes are bred from a flock that has increased fertility and lamb survivability genetically imprinted. They have been a non-mulesed flock for 18 years. Quality young ewes to add to your merino breeding program. All the ewes were individually weighed at assessment.			
Assessor	Paul Alchin (Level 3 Accredited)
