Assessor Comments	Very well bred line of classed in ewe lambs. Ewes are genuine large frame type and in forward condition carrying a November skin. Aug/Sept 2025 drop. Ewes failed to join as lambs and any dries are annually given a second chance at pregnancy and are retained into an Autumn joining program later in the year. Ewes are generally retained for this program but due to vendors northern property being dry, ewes are offered to free space for cattle to head south. Bred from a flock with good fertility and an autumn program which works well for the vendor annually. Please call for further information
