Assessor Comments	The lead draft of 800 NSM Richmond Blood Merino ewes that will be sold as two runs of 230, delivered as a run out of the gate. The opportunity to put 460 ewes back together. These ewes are mainly medium to large frame, with an emphasis being made on early growth and wool cut when selecting rams. Ewes were crutched on the 10th of September. These ewes had their lambs weaned off them back in the middle of August and are improving daily. In what is a record breaking store/fat market, as well as the wool market continuing to strengthen, these ewes provide the potential buyer with a cost affordable ewe that has the potential to raise lamb for several years to come, whilst also cutting over 6kgs of wool. These ewes are value for money. These ewes would suit both maternal and terminal enterprises.
