Assessor Comments	A really good opportunity to buy a well bred line of excess to requirement young Merino ewes. These ewes traditionally grow out to typical large frame Gum Hill blood merino ewes that have been used in both a 1st Cross and a self replacing Merino flock enterprise. Although we are not nominating dentition, a number of these ewes are still showing lambs teeth. These ewes are shorn up and are in forward store condition ready to join in months to come. Please note in the delivery comments, the vendor would like the ewes to be delivered as quickly as possible for paddock management purposes, although if you are interested in purchasing please make contact with Conor Lamond to talk alternative delivery dates.
