Assessor Comments	These ewes are premium quality, testament to the time and money invested into this flock. Heavy cutting, long bodied, fertile flock of top Ewes. Rams purchased ex Charinga/Banavie at \$10k -\$20k on regular basis are used to generate this premium article. Cannot say enough to warrant the high degree of style and type associated with this mob of sheep. Will continue to grow into very heavy, deep sided breeders that cut a heavy fleece and raise lambs. All breeders on farm are scanned and wet and dried every year. Proven breeders. Overnight curfewed at assessment. These ewes will add substantial value to any operation. These ewes have never had the opportunity to any rams. Highly recommended by assessor.
