Assessor Comments	This is the annual Culverson Farming 1st X ewe hoggets which have been offered for over the past 10 years. This lot is the top of the draft with 40% of the tail removed. The ewes are out of large framed Haddon Rig blood Merino ewes & top quality Dunniel Borders Leicester Rams. Ewes are Gudair vaccinated & have been kept up to date with all animal health treatments. These ewes have not had access to any rams, giving purchases the opportunity to join these hoggets with the ram of their choosing. The odd ewe has got a black dot behind the ear but all ewes with black on the wool have been removed & the Photosensitisation is minor on the ears within the mob.
