Assessor Comments	Buyers, on offer is a small but well bred line of future breeder ewe lambs out of the heart of Arcadia Merino stud. These young ewes are surplus to requirements and on the most part represent the later lambs from the 2025 drop. Arcadia Merino's are bred to be robust and resilient sheep that perform under everyday paddock conditions by selecting on genetic traits rather than supplementary feed. Arcadia place an emphasis on sound confirmation and strong carcass traits without compromising the soft handling long stapled white wool. These lambs are plain bodied, clean breeched sheep with the stud continually focussed on working towards bare breeched muleseing free animals. Nice lambs that came through a tough Summer /Autumn but have bounced away with the more favorable season. If given the correct husbandry should continue to grow out into very nice young ewes and join up to the ram of your choice in the new year.
