Skin Comment	Seed is on skin mainly around belly and points. About 4% showing water damage/dermo on back/shoulder - worst removed prior to assessment.						
Wool Comment	Grasmere retained ewes are shorn every 6 months for management. Heavy cutting ewes. The 4.6kg chorn is September is 9 months fleece, and that is just fleece weight, not bellies, pieces etc.						
Vendor Bred	Yes						
Stock History	Grasmere Poll Merino blood						
Breeding Comments	Grasmere blood and bred						
Grazing Conditions	Natural Pastures Returned same

7 Head	scur/horn						
Assessor Comments	420 ewes offered as 2 lines of 210 - run out the gate. These ewes represent a great opportunity to get into some strong performing sheep. These July/August 2025 drop classed out ewes are long barrelled ewes and present in strong forward condition and are showing great weight for age. Ewes are showing their potential this season given they are a month younger than normal. A smaller % has been retained this year due to property change - thanks Inland Rail, Normally the flock is classed at 45%, this year 60%. These ewes will suit any operation, from Merinos to xbs or 1st x ewe production with a previous buyer continually topping the Temora/West Wyalong 1st x ewe sale. Can highly recommend these ewes, please ring for any further info or recommendations.						
Assessor	Adam Randall (Level 1 Accredited) Phone: 0467 427 404
