Assessor Comments	Outstanding quality Bungarley blood and bred Australian White mixed age ewes. These ewes are from the heart of the Bungarley commercial Aussie White flock and are being sold as surplus to requirements due to young ewes coming through the system. They exhibit the true characteristics of the breed being fully shedding, structurally sound not having been foot paired and the vast majority have the true black hooves. They are large framed and are the results of years of breeding with a significant investment into quality genetics. For example the syndicate purchase of Tattykeel Platinum for \$240,000 in 2022, as well as other significant purchases. Bungarley focuses on doing ability in a commercial higher rainfall climate, body and foot structure as well as fertility. They would be suitable to breed commercial sires out of if required to help boost ram numbers for a commercial operator. Presenting in top condition and only being sold due to having ample replacement young 2026 drop ewe lambs. Genuine front paddock ewes that will complement most Australian White flocks.
