Assessor Comments	A very nice line of young Aussie White ewes, in which their first lambs have been gradually weaned off them by selling them off their mums strait to market, with an exceptional result. Please note the final 60 lambs left are still with their mums and will be weaned on delivery or a day or two prior. The vendor is only selling to make way for cropping program. Ewes are in extremely good condition with no other sheep on the property. Please note that when they were first joined last year, they were joined for a short period and not pregnancy scanned so there was the odd ewe that didn't have a lamb this year. Apart from a small tail being removed this will be the whole mob. Great opportunity to purchase some good 2024 drop ewes and join to the ram of your choice. They are healthy and coming off clean country.
