Assessor Comments	A rare opportunity to purchase a the complete drop of the Inverlaur Maiden ewes. These young ewes would normally be classed and kept for production but are now for sale due to a change in operation. These ewes are typically high productive and retained up to 6-7 year old, and generally cut 5+kg of 18-19 micron wool. They would make an excellent addition to any wool grower operation, and would perform well joined back to merinos or terminals. Please note, the wether portion is also available this sale.
