Assessor Comments	These 85 annual draft First Cross ewes represent a quality line of young breeding females, averaging 69.6kg and ready to join. Bred from pure Merryville blood ewes and sired by large-framed Womboota rams, they combine proven maternal genetics with outstanding size, length and capacity. Freshly shorn and presenting in healthy forward condition, they are a very even line displaying sound structure, good wool cover and excellent doing ability. As lambs, they tested an impressive average of 23 micron, highlighting the quality and softness of their wool while maintaining excellent growth and frame. These productive females offer strong breeding potential, fertility and longevity, making them ideally suited to both commercial and replacement breeding programs. A genuine opportunity to secure productive young ewes with performance, wool quality, scale and future profitability. Note vendor has 2 lots in this sale to be split as run out the gate.
