Assessor Comments	Offering a very well bred line of Greenland blood merino ewes. Ewes are surplus to the studs requirements. Off shears a few weeks these girls are powering ahead on short Illabo wheat and will continue to do so. Gudair vaccinated and mulesed, this line of ewes will be an asset to either wool or 1st x lamb production. Ewes will grow to medium frame future breeders. Tough Monaro ewes that should cut 7kg and average 18mic as grown ewes. Please note can help with cartage to Riverina areas with weekly market trucks.
