Assessor Comments	NSM Merino Ewe Hoggets with quality Cressbrook bloodlines, offering a well-bred young line with plenty of potential. These ewes are 14–15 months old, being a July–August 2025 drop and were purchased through Auctions Plus in August. They are averaging 50kg liveweight and are coming along well for their age. They present as a neat line of young ewes with good breeding behind them. Please note these ewes have a light amount of corkscrew and barley grass in the shanks and bellies. Please note feet comments, ewes would benefit from going onto some hard ground to wear back their toes.
