Assessor Comments	Offering a nice line of 338 Young merino Ewes. These ewes are July 2025 drop. They are Hamilton run & Glenlea Blood, September shorn and have had a Gudair vaccination on their arrival in November 2025. These ewes are medium to Large frame and present in forward to fat condition. This line of ewes were purchased off auctionplus in November 2025 and were run on the vendors stubbles over summer. At shearing these ewes cut a 90mm staple @ 9 months growth . Ideal ewes to join back to a merino or joined to a terminal sire. A good % of the ewes still have their lambs teeth or have just cracked.
