Assessor Comments	Second Run of the complete drop, offered as part of a run-out-the-gate line of 178 ewe lambs. April/May drop lambs that are well grown for age and displaying excellent breed type. Bred from fully shedding sires and dams selected for shedding ability, growth, structural correctness and black feet. Dams and progeny are EID performance recorded. True shedding breed genetics, with no sheep shorn on the property since commencing the Aussie White breeding program. These ewe lambs are currently holding some wool, as expected for their age and the cooler seasonal conditions. An excellent opportunity to secure quality future breeders.
