Assessor Comments	Buyers, on offer is a good line of 410hd (2 lots of 205hd) 'Classed In' Non-Station Mated Merino Ewes. Ewes are sired by Kambah Poll Merinos, originating from a CentrePlus base whereby emphasis is placed on fertility, carcass traits, low micron, high fleece weights and plain bodies. The Powell Family place significant emphasis on breeding sheep that display the above traits whilst additionally focussing on breeding sheep for the last 15 years that are 17 micron with bright, stylish wools & selecting sires based on structural phenotype and high indexing YFATs, EMD & PWTs. Purchase with confidence as these ewes come from a closed and very well managed flock that only introduce news rams to the property each year. Shorn only 20 days prior to sale, these ewes present in forward condition, ideal for an immediate joining to a sire of choice. For any further information, please feel free to contact.
