Assessor Comments	Good quality line of NSM merino ewes rising 15 months of age. Sired by grassy creek merino rams they show good frame and type for their age. Ewes have recently been classed surplus to the vendors requirements and represent an annual sale. They carry an excellent January skin displaying plenty of softness and nourishment. Ewes equally suited to a merino or terminal ram. Ideal to shear and join this year or next. 80 ewes were classed out at assessment to give a very good even line to offer. Bid with confidence. Note ewes carry a green "B" brand on their back. Please call for further information.
