Joining Access Details	Vendor states there were never any rams identified in ewes or removed from the ewes, however some ewes have just lambed or were on the point of lambing at assessment. Dates which the ram/s had access to the ewes is unknown. 133 ewes are scanned empty
Assessor Comments	Lamb breeders, here is a great opportunity to purchase a line of ewe hoggets ready for the rams, with all the hard work done. These ewes are 16-17 months old, and are September shorn. They are sired by Mt Beckom and Glamis Border Leicester rams out of large framed Lachlan Merino blood ewes. Ewes present as well grown ewes with good frame, which have done well on pastures with no grain feeding. Of the 164 ewes, 133 were scanned empty on 9/12/26. The remaining 31 ewes were not scanned and there were ewes with young lambs at foot or ewes on the point of lambing removed at assessment. Vendor believes these 31 ewes should be empty, as there were no ewes which were not visibly on the point of lambing identified as being in lamb in the 133 ewes scanned empty. However, it can not be guaranteed that these 31 ewes are empty, please take this into consideration. Overall a line of well grown line of young ewes ready to join to the ram of your choice.
Assessor	**Brendan Mansbridge (Level 1 Accredited)** Phone: 0428 845 041
