| Assessor Comments | On offer an ideal line of classed in Rising 2.5 and 3.5 year old Merino Ewes to join to the Ram of choice for an Autumn Lambing. This is part of a dispersal due to a change in enterprise. Ewes are in ideal condition to join and this season all ewes raised lambs at a weaning rate of 125% in addition produce quality wool in a short period of time. Vendor consistently shears ewes every 10 months with very pleasing results. Some photos were taken prior to shearing to show what they will actually cut. Please note that there is a smaller lot of the older sisters in the same sale. Also any tags in the Right ear have been put there for management only, it is the tags in the left ear that determine the age. |
