Any Access To Rams or Stags?	To vendor's best knowledge, this lot has had no access to rams or stags.
Assessor Comments	190 NSM Merino Ewes Acc. Playford Family Farming Trust - June 2023 Drop - Glenelg Blood - September Shorn - Gudair Vaccinated & Mulesed. Regretful sale due to end of lease. The above line of ewes were all classed in breeders which have only found themselves to be classed out after rearing their first lamb for not scanning as a multiple. The Playford family have been using Glenelg Merino genetics for the past 40 years in their breeding program. Ram selection is a stringent process where large frame & carcass are strong attributes complemented with 18.5/19.5 micron, SD measurement between 3.5-4 & a comfort factor of 99 plus are also key factors. As a 12 month flock average mature ewes cut 6.5kg at 19.5 micron yielding 66.5%. The style of these ewes offers perspective purchasers the option to become an inclusion to a self replacing Merino ewe flock or become prime lamb producers & will do either extremely well. Opportunity to secure outstanding Merino ewes in the prime of their lives. Highly Recommended!!
Assessor	**Harry Cozens (Level 2 Accredited)** Phone: 0491 131 799 Parallel Assessed By : Will Chandler
