Assessor Comments	Offering 170 outstanding first-cross ewe hoggets, presenting in a very even, well-balanced line with plenty of frame, length and growth. Averaging an impressive 76kg at assessment, these May/June 2025-drop hoggets are October shorn and display excellent shearing quality. Bred out of large-framed Mid North Merino ewes from a self-replacing flock carrying Morrundie Park bloodlines, and sired by high-indexing Coolawang rams selected for bare breech traits. These hoggets combine proven maternal bloodlines with strong genetic backing, offering an excellent opportunity to secure quality first-cross females with plenty of future breeding potential. The ewes are not mulesed and tail stripped. But show bare breech traits, 35% of the line was assessed and individually weighed. The entire line has never been exposed to stags or rams, with no previous ram contact. Regretful sale due to a leased Property Expiration. Animal Health: ● Glanvac 6+B12 booster – 8/9/26. ● Coopers Trifecta drench – 25/10/26.
