| Assessor Comments      | A very good line of Hereford steer calves, purchased out of April weaner sales with the emphasis on well bred calves from reputable breeders. All coming out of winter in good healthy fresh condition, there are some with old ring worm scars and lice rub but are certainly well on the way of cleaning up with good animal health practices. They are showing good shape and stretch and should grow out well. |                                           |                                     |
