| Assessor Comments | Buyers a top line of well-bred Angus steer calves averaging 360kg. These young steers have great weight for age and are a credit to the vendor! They present as an even line with 30kgs from lightest to heaviest. The last few years the vendor has spared no expense sourcing the best Angus genetics available. They have good frame and length, and are displaying great shape, style, softness and type. Going forward, they should continue to grow into well finished medium to heavyweight steers suitable for all grassfed markets being Greenhams NE acc and NG/NA. Vendor will yard wean calves on Friday 20th November with silage at conclusion of sale Note: Vendor has two other lines in this sale |
