Handled With	Heifers were good to handle throughout the assessment, all were drafted through a round yard, some became agitated when singled out but settled quickly when returned back to the mob. Bikes , Dogs , Horses , Vehicles		
Assessor Comments	A line of Angus x Simbrah Heifers, weighing from 282-423kg to average 349kg with a projected delivery average of 331kg. The heifers have had a very hard time for the last 12 months with severe drought conditions, during this time they have been running with a Black Simmental Bull. The Heifers were apart of the Vendors Composite Bull breeding program and are a regretful sale - only being sold due to the seasonal conditions. Any heifers that were heavily pregnant/springing or had already calved were removed from the mob prior to assessment.
