	These heifers were good to handle but did stir up when getting put through the crush, but settled down very quickly when taking the photos.					
Handled With	Bikes					
Assessor Comments	An outstanding line of one marked Angus heifers and calves that have been running back with the Angus bull since the 1st of April. These heifers were bought out of CTLX as weaners and have grow out to be large framed heifers that are doing a great job on their calves. The calves average 180kgs and have been marked and vaccinated. These heifers and calves present an outstanding opportunity to buy quality young breeders that you will have for a life time. Cattle that come highly recommended.
