|                        | Quiet: 17 head<br>Slightly Stirry: 3 head<br>Cows displayed good temperament overall. There were a small percentage of cows that were slightly stirry whilst being assessed and drafted away from their calves. Vendor was comfortable to be up close with them in a small force yard to keep them moving up the race. All settled well once left with their calves in larger yard as per videos.                                                                                                                                                                                                                                                                                                                                                                                                                                          | Quiet: 16 head<br>Slightly Stirry: 4 head | Temperament not assessed in<br>Paddock |

| Assessor Comments      | Presented is a nice quality line of 20x20 NSM cows with CAF. These are genuine 7 year old cows that have reared a calf each year, and still have plenty of life left in them. They are in tip top condition having recently calved and are doing an excellent job on their calves. Calves are very even (see weight spread) and are fresh as daisies. Vendor has a good working herd of moderate framed females, that more recently of been influenced by Arden, Mundarlo and Milong Angus sires, all selected on type, softness and structure. Cows are set up for a spring joining to a bull of choice. Cattle come recommended and have always been sound performers even in tough times. They look an absolute picture, coming out of a booming autumn period and would be a low maintenance, welcomed addition to anyone's operation. |                                           |                                        |
| Assessor               | <b>Harry Waters (Level 1 Accredited)</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                                           |                                        |
