	10 Head	Light rubbing from lice under tail.	
Assessor Comments	A very good line of 69 x 2018 Drop PTIC Angus Cows. Classed in Rennylea blood cows joined to Rennylea sires. Buyers can take the opportunity to buy healthy PTIC cows of quality breeding and proven performance, they exhibit excellent temperament and present very well as a group. A wonderful opportunity to purchase a line of classed in cows to calve over 6 weeks from early September. Ellendon select sires with structural soundness and above average growth, carcase and fertility EBVS. The Ellendon cow herd are medium to large frame functional and fertile females, Ellendon focus on breeding heifers that reach maturity early and fall pregnant in the first joining period. The steer progeny is bred to achieve feeder weights within 12-14 months, the performance of the Ellendon steers is noted by repeat buyers. Some of these cows were purchased in 2020 and have retained their place in the herd by conceiving and raising a calf every year. Rising 8 years old, the cows present well, they are sound in the feet and of the first 15 cows mouthed, all presented as full mouths. (See photos) Sound breeders who will offer buyers more opportunity in the coming years. To be offered in 2 x groups of 35 and 34 respectively and will be delivered as a one for one split out of the crush.
