	Quiet: 42 head	Quiet: 40 head	Temperament not assessed in	
	Slightly Stirry: 6 head	Slightly Stirry: 8 head	Paddock	
	Generally a quiet mob of females to handle, just a few heifers were, understandably, a little unsettled in the crush, anticipating being Preg tested/AI'd again, once the head bale was opened, they just exited at a walk and were very sensible making their way back to their sisters. Extensively yard handled, & easy to walk around and take photos and videos of.			
Handled With	Bikes , Dogs , On foot , Vehicles , Polaris Buggy			
Notable Traits	Traits			
	6 Head	Rubbing from recent Lice		
	4 Head	White Flank		
Assessor Comments	Genetically exceptional young females, boasting a long rich history of select, high class Reiland genetics in their pedigree, never sparing any expense when chasing sires with desired attributes. Originally picked out as part of the keeper mob and put through the A.I program, only being offered for sale due to missing out on the A.I joining and being naturally joined to the L.B.W Reiland Angus Bulls, and now out of sync with the farms normal calving window due to Bulls being left out during the chaos of the fires late last year. These are healthy young heifers that on vets advice, have all conceived in a single cycle, to commence calving in late September. Well handled & in optimum condition to calve down. Please see photos & video for full contentment.
