	Generally a quiet mob of females to handle, just a few heifers were, understandably, a little unsettled in the crush, anticipating being Preg tested/AI'd again, once the head bale was opened, they just exited at a walk and were very sensible making their way back to their sisters. Extensively yard handled, & easy to walk around and take photos and videos of.		
Handled With	Bikes , Dogs , Horses , On foot , Vehicles , Polaris Buggy		
Notable Traits	Traits 2 Head Minor Eye Blemish		
Assessor Comments	Genetically exceptional young females, boasting a long rich history of select, high class Reiland genetics in their pedigree, never sparing any expense when chasing sires with desired attributes. Originally picked out as part of the keeper mob and put through the A.I program, only being offered for sale due to missing out on the A.I joining and being naturally joined to the L.B.W Reiland Angus Bulls. These are healthy young heifers that all conceived in a single 3 week cycle. In optimum condition to calve down in the Spring. Please see photos & video for full contentment.
