Assessor Comments	Offering on behalf of MDC Farms Trust are 46 Angus Heifers with 46 Angus Calves at foot. Heifers calved in Mar/Apr, all unassisted, and all milking and doing a great job on their calves. Calves were sired by Scotts & Table Top Angus bulls, were marked and vaccinated in May. Heifers calved as 2yo / autumn drop 2024, and originated from summer weaner sales in 2025, mainly from the north-east Vic region. Heifers are moderate framed and present in store condition, but as mentioned are doing a great job milking and raising their calf, and will continue to do so into the spring. Heifers have been running with 2x Chiltern Park Angus bulls since 17/6/26, and are currently still in and will be until delivery, which will be a 7 week joining (**pending del. day). Heifers display great temperament and are easy to handle. A great option on the doorstep of spring for anyone looking to top up autumn calving numbers, or a trade option.
