Assessor Comments	A great line of Angus heifers and calves that are principally Mundarra blood bought out of Ctlx. These Medium to large framed heifers were in an ideal condition to calve down and have started to jump ahead since they have been put on the oats crop. The calves are by a Aloura Angus bull and the heifers have been running with a Aloura Angus bull. These young units are ideal to improve most herds and were lovely cattle to handle. With all the hard work done these heifers and calves come highly recommended.
