	These heifers were very good to handle in all parts of yards, they worked up well into race and crush. Some heifers did become agitated whilst being assessed and photographed, although not unexpected with baby calves at foot. It is recommended that these heifers are allowed plenty of time to mother up and settle into their new environment.		
Handled With	Bikes , Dogs , Horses		
Assessor Comments	Buyers here is a opportunity to purchase a very good line of heifers and calves. Only being sold due to dry conditions. These heifers are a great opportunity for a breeder to retain females that are structurally sound with good sound udders. These first calvers have calves at foot by sired by Angus bulls. They have plenty of milk and are doing a good job on their calves.
