	Majority of Heifers stirred slightly when in the crush getting mouthed, however settled quickly once released back into the bigger yard with the mob. Heifers flowed well through the yards and race and were generally a pleasure to handle throughout the assessment process.		
Handled With	Bikes , Dogs , Horses		
Assessor Comments	A nice tidy little line of Droughtmaster x PTIC heifers. These heifers have been running on lighter traprock country so should perform well for the potential buyers given the chance on better feed. Heifers were to be retained, however property has been sold. Vendor has tried to select suitable sires to try and minimise any potential calving problem. Heifers would suit anyone looking to replenish Xbred breeder herds or any smaller acreage landholders.
