Assessor Comments	A nice solid line of Angus cows and calves. Described principally as 4 to 5 years, approx. two thirds of cows are identifiable via colour tags to age balance are not but nothing appeared significantly older during assessment. Good solid cows, structurally sound in both feet and udders. Carrying plenty of condition and weight with nice fresh calves at foot by the Kywarra Angus sires. A nice bull sized mob of cows and calves to take on into the spring with plenty of breeding behind them.
