Assessor Comments	59 x 11 Droughtmaster cross Cows and Calves. Dry cows are PTIC 2-8 months with only a handful under 5 months in calf. Calves at foot are fresh to 16 weeks (majority fresh to 6 weeks). Low maintenance medium frame cows that are extremely fertile. Cows are age branded No# 2s and 3s and are on their third calves. Cows purchased as weaner heifers and have been retained as breeders. The temperament on these cattle could not be better; they are extremely well handled and very quiet in the yards and paddock. Cows are running with Seifert Belmont Red Bulls. Cows have been running on lighter country and majority had weaners pulled off approx. 8-10 weeks ago. **Please note the property has been sold, and this is a full herd dispersal. Great opportunity to purchase some proven low maintenance breeders. ** One Cow has a pop eye (she has calf at foot)
