	Quality Grades		Store Condition	
	Very Good	90%	Fwd Store	95%
	Good	10%	Store	5%
Temperament	Yards		Crush	Paddock
	Quiet: 20 head Slightly Stirry: 1 head		Quiet: 17 head Slightly Stirry: 4 head	Quiet: 20 head Slightly Stirry: 1 head
	Overall, heifers were easily handled through the yards. 1 heifer became slightly stirry, when isolated by being the last through the force yard leading to the crush, and remained a little flighty after release. 3 other heifers were unsettled & jumpy whilst be mouthed in the head bail, but settled quickly once released.			
Handled With	Bikes , On foot , Vehicles			
Notable Traits	Traits 1 Head Small white marking on forehead & lower tailbrush			
Assessor Comments	A very even line of well bred, one-mark PTIC Angus heifers in calf to their second calf, by the TeMania Angus bulls. These young cows are medium framed, & are presenting in fresh condition, having had their first calves weaned off in June. These heifers have developed well, particularly given they were joined at a relatively young age for their first calf, which is a testament to the constitution & doing ability of these quality heifers. They are exhibiting good thickness & depth along with a good deal of stretch, & will develop further into reasonably heavy young cows when prime. Bred at Condobolin NSW, with genetics based on MOOGENILLA & WRIGLEY CATTLE CO Angus bloodlines, with a strong a focus on calving ease which, when combined with the top quality TeMania sires used, should ensure some cracking Angus calves on the ground, their second time around. A great opportunity to secure a quality line of young PTIC Angus breeders at the peak of their production. With prime old cows currently selling very well, & a favourable early outlook for Spring, they offer real value & an attractive change-over opportunity into younger PTIC breeders, with potentially change in your pocket.
