Assessor Comments	Buyers a very good line of well-bred Angus cows averaging 489kg. To be fair to these cows, they have only had their calves weaned one week ago so therefore are not presenting as heavy as what they should be. Going forward in the next few weeks, these cows have the capacity to put a lot of weight on very quickly! They have good frame and length, and are displaying shape, style and type with their whole lives ahead of them! PTIC to commence calving 5th February for 6 weeks, joined to AI Angus sires and backed up to Landfall Angus bulls. Greenhams NE acc, JBS FA, NG/ NA Note: A large percentage of the group have hair removed from rubbing on neck area Note: Freight to Melbourne wharf approx \$150 per head Note: Vendor has multiple lines in this sale
