	Extremely well handled and managed cattle that were very quiet and easy to handle, a pleasure to work - respectful of their calves through the yards.					
Handled With	Bikes , On foot , Vehicles					
Assessor Comments	A very attractive group of young females with their first calves at side. The females present in great order to have calved down in and are on the do with a tremendous vessel of milk under them, they are medium to large frame for age and in forward condition. The calves are fresh and sappy and are thick and deep with solid bone reflecting the depth of breeding in them (sired by a \$38,000 Nampara Angus Sire), there are 9 bull and 9 heifer calves which weigh from 73-122kg to av 96kg and are unmarked. Classy units that would do anyone proud, these females represent the final stage dispersal of the vendor's female herd. Note - 2 Females have white on the udder (breed acceptable)
